CONCERNING DELINQUENT SUBSCRIPTIONS.

Once again the News must call the attention of its delinquent subscribers to the fact that we are in need of the money due us, and expect settlement of all such accounts within a reasonable time. Notices of delinquency were sent to most of those whose subscription is in arrears. A few have responded, but others have made arrangement for payment in the immediate future; but there are many from whom we have no response of any kind. We cannot, of course, continue indefinitely to spend money to notify you that your subscription is overdue, and yet you would probably feel very much insulted if your accounts were turned over to parties who make the collection of such accounts a business. This is of course, what must ultimately be done in case no notice is given our mild reminders; for not even the printer, who is supposed to stand for most anything, can afford to give his work away. He must patronize the type founder, the paper house and other houses and he must pay their bills, spot cash. How is he to do this while your figures are from two to nine years back on his big book?

The delinquent subscriber should not consider that an injustice is done him in the mailing to him of a statement of his account. You have been favored with credit for years by your printer, while your merchant demands security and prompt settlement in every case. Is it not, rather, in the nature of a favor that you be informed as to how much you have abused your privilege?

Do not think the printer is persecuting you? In rare instances he may have made a mistake in your account, but you can always straighten this out by calling on him and going over the figures yourself. Remember that we expect you to do something without delay.

Miss Juanita Hendricks has returned from a visit with her sister, Mrs. Clyde Waller, at Sarcoxie. Mrs. Waller accompanied her to Jasper and will visit here for a time.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Webb Bros. Druggist, 50c.

It is known as "Lewisine Stomach and Kidney Cure," a purely vegetable compound. "Lewisine" for Kidney and Bladder Trouble.

There is a disease prevailing in this country most dangerous because so deceptive. If kidney trouble is allowed to advance, if the poison is retained in the system it will attack the vital organs, or the kidneys themselves will break down and waste away. "Kidney Troubles" are the cause of many diseases. The kidneys are the great filters of our bodies, and consequently the purity of the blood is largely dependent on their cleansing power. Therefore, we offer you "Lewisine" Stomach and Kidney Cure, the quick relief and sure cure for all kidney and bladder troubles. It removes Gravel, strengthens weak and lame backs, gives quick relief and eventually cures Diabetes and Bright's disease, when taken in time, and all irregularities of the kidneys and bladder, rheumatism and all diseases arising from a rheumatic diathesis.

"Lewisine" Antiseptic Wash.

is a powerful, trustworthy, non-poisonous and purely vegetable Antiseptic and Germicide and may be relied on to destroy the germs that constitute infection and cause disease. Diluted as necessary for varied conditions. "Lewisine" Antiseptic Wash may be used as a wash and dressing for wounds, as a local application for ulcers, abscesses, bruises, sores, and all skin diseases; as a gargle for the throat and mouth; or as an inhalant. It is a sure cure for catarrh of the nasal passages, and should be used in an atomizer, 1-4 teaspoonful or more as required, to one ounce of water twice a day as a spray. Also use "Lewisine" Stomach and Kidney Cure four times a day; it never fails to cure. For female trouble, where a douche is indicated "Lewisine" Antiseptic Wash has no equal, especially in such trouble as Leucorrhoea or Whites, used as an injection in the proportion of one-half to one tablespoonful to one quart of previously boiled water and used as warm as possible twice a day. It gives quick relief and eventually permanent cure. It would be advisable to use also "Lewisine" Stomach and Kidney Cure as a tonic, in doses as stated on the label of the bottle.

In using "Lewisine" Antiseptic Wash for Eczema, Herpes, Acne Erythematosa and all skin diseases, apply to the affected surface three or four times a day with atomizer or piece of absorbent cotton. The application sometimes produces a burning sensation, especially with children. In such cases fan the part treated; this will cool the burning and in a few seconds the patient will be relieved.

For boils, bruises and inflamed joints, apply a compress of absorbent cotton wet with a weak solution of "Lewisine" Antiseptic Wash and wrap with a cloth or bandage. Keep well saturated with "Lewisine" Antiseptic Wash. It never fails to relieve pain and swelling.

For a tonic, in cases of chronic sores, use "Lewisine" Stomach and Kidney Cure. Notice—"Lewisine" is not affected by heat, cold or age; but must be kept well corked.
